The BT 20 is an amazing benchtop blasting cabinet. Constructed from welded 18 gauge steel, you get big power in a small footprint.

Cyclone abrasive blasting cabinets are constructed from high quality components, then sealed and painting to prevent leaks and protect and shine.

Welded steel makes for a sturdy cabinet capable of handling heavy items. A foot pedal activated blast gun with a ceramic nozzle produces a powerful 3.6 CFM.

Our headquarters is in Michigan and we proudly label our products Made in the USA. Our customer service is ready to help you before or after a purchase.

With budgets in mind, we produce quality that won't hit your bottom line.
