The FT 4826 offers plenty of room for small to medium size parts. It includes a powerful 90 CFM dust collector to improve visibility inside the cabinet.

Cyclone abrasive blasting cabinets are constructed from high quality components, then sealed and painted to prevent leaks and protect and shine. The interior of the view window includes a protective layer to prolong its life.

Welded steel makes for a sturdy cabinet capable of handling heavy items. A trigger activated blast gun with a ceramic nozzle produces a powerful 14 CFM. This makes quick work of almost any project.

Our headquarters is in Michigan and we proudly label our products Made in the USA. Our customer service is ready to help you before or after a purchase.

*With budgets in mind, we produce quality that won't hit your bottom line.*
