The DP 38 is a direct pressure blaster with huge capacity and high pressure power. With a full opening top and tungsten carbide nozzle, this unit brings plenty of features and flexibility.

Cyclone abrasive blasting cabinets are constructed from high quality components, then sealed and painting to prevent leaks and protect and shine.

Welded steel makes for a sturdy cabinet capable of handling heavy items. This makes quick work of almost any project. Included is an air gauge and regulator to refine the powerful pressure blaster output to your specific needs.

Our headquarters is in Michigan and we proudly label our products Made in the USA. Our customer service is ready to help you before or after a purchase.

With budgets in mind, we produce quality that won't hit your bottom line.
