We include the DC1500 on most of our abrasive blast cabinets because it works so good and is easy to maintain. A cloth filter bag and paper cartridge filter protect the motor, all while the powerful 90 CFM efficiency gives you great visibility inside your cabinet.

This unit easily separates for routine filter cleaning. The long 6' hose lets you place the unit in the most convenient location. Included hose ends let you adapt the host to your specific needs.

Our headquarters is in Michigan and we proudly label our products Made in the USA. Our customer service is ready to help you before or after a purchase.

With budgets in mind, we produce quality that won't hit your bottom line.
