The PT100 is our extremely efficient pressure blasting system. A 10' hose and easy to use manual control valve makes blasting easy. The unit has solid 6" rubber wheels making it portable as well.

The ACSME certified pressure vessel can hold up to 90 US pounds of abrasive media, keeping you blasting longer! We also include a pressure relief valve, safety goggles, and an air gauge.

The unit is easy to fill, move, and use. If you are searching for a pressure pot blasting system, this is an ideal unit for almost every application.

Our headquarters is in Michigan and we proudly label our products Made in the USA. Our customer service is ready to help you before or after a purchase.

*With budgets in mind, we produce quality that won't hit your bottom line.*
