Window	46" (w) x 13" (h) Acrylic
Construction	Welded 16 Gauge Steel
Blast System	35 CFM @ 70-90 PSI
Blaster Operation	Foot Pedal Operated
Gloves	24" Long Unlined Rubber
Electrical	110 Volts
Side Door	Two - See Schematic
Weight	775 US Pounds

The M4848 is large and in charge. It has two extremely large side doors. The 42" turntable is able to hold 700 US pounds and still easily turn! The unit comes standard with a 400 CFM dust collector!

Cyclone abrasive blasting cabinets are constructed from high quality components, then sealed and painting to prevent leaks and protect and shine.

Welded steel makes for a sturdy cabinet capable of handling heavy items. A too activated blaster gun with a tungsten carbide nozzle produces a powerful 34 CFM. This makes quick work of almost any project.

Our headquarters is in Michigan and we proudly label our products Made in the USA. Our customer service is ready to help you before or after a purchase.

*With budgets in mind, we produce quality that won't hit your bottom line.*
